2019 – Present | Post-doctoral Fellow

Exploring and therapeutically exploiting the tumour microenvironment of glioblastomas and brain metastatic tumors. Prof. Johanna Joyce's lab, University of Lausanne (UNIL) / Ludwig Institute for Cancer Research (LICR), Lausanne, Switzerland.

2018 – 2019 | Post-doctoral Researcher

Comprehensive analysis of Activation Induced Deaminase off-target activity in humans: implications for B cell related malignancies. Prof. Almudena Ramiro's lab, Centro Nacional de Investigaciones Cardiovasculares (CNIC), Madrid, Spain.

2013 – 2018 | Ph.D. in Molecular Biosciences, Universidad Autónoma de Madrid, Spain.

Molecular mechanisms of Activation Induced Deaminase specificity in B lymphocytes. Prof. Almudena Ramiro's lab, Centro Nacional de Investigaciones Cardiovasculares (CNIC), Madrid, Spain.

2012 – 2013 | M.Sc. in Molecular Biomedicine, Universidad Autónoma de Madrid, Spain.

2007 – 2012 | B.Sc. in Biotechnology (5-year Licenciatura), Universidad de Salamanca, Spain.
